**Eisai Introduces Travelmin<sup>®</sup> Churop Lemon Flavor**

*A New Flavor of its Drop-type Motion Sickness Remedy*

Eisai Co., Ltd. (Headquarters: Tokyo, President and CEO: Haruo Naito) announced today that the Company will launch Travelmin<sup>®</sup> Churop Lemon Flavor (class 2 pharmaceutical product), a remedy for motion sickness, on Monday, March 8.

Travelmin<sup>®</sup> Churop Lemon Flavor is a new flavor variation of Travelmin<sup>®</sup> Churop Grape Flavor, which was launched in February 2009 as a drop-type motion sickness remedy that is easy for both adults and children to take. The product's active ingredients, comprising an antihistaminic (d-chlorpheniramine maleate) and an anticholinergic (scopolamine hydrobromide hydrate), act to prevent and alleviate dizziness, nausea and other symptoms associated with motion sickness. Provided as a drop-type product, the remedy can be taken without water, which makes it easy to take for children and adults who are reluctant to take existing motion sickness remedies.

The new Travelmin

## <Notes to Editors>
